

Process Document for Converting PPT/ Google slides into H5P.

1. Save each slide in PNG/Jpeg format
2. Go to H5P, an open source authoring tool from [here](#)
3. Create your free account on H5P
4. After creating your free account, go to “Add New Content“
5. Select your “Content type”. Suggestion for RLO creation is Course presentation.
6. Go to option “Slide background” and add the PNG Images of your slides
7. You can add assessments like Fill in the Blanks, MCQs etc to make your content more interactive
8. Don't forget to update your content.
9. Once your content is ready, download and upload onto the ShikshaLokam platform
