New releases for Samiksha

Version 1.1.6

1.
Multi-media Upload

ShikshaLokam
Education Leadership Platform
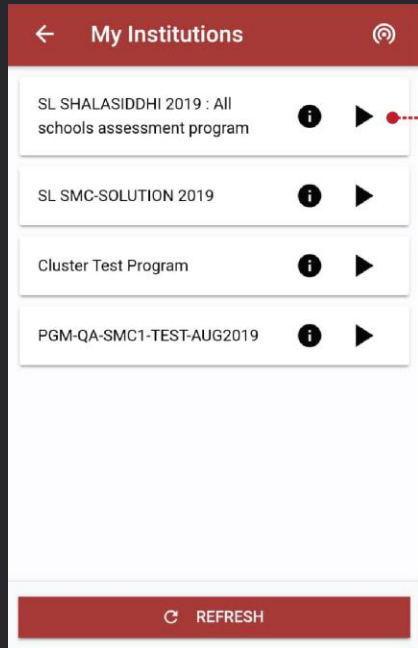

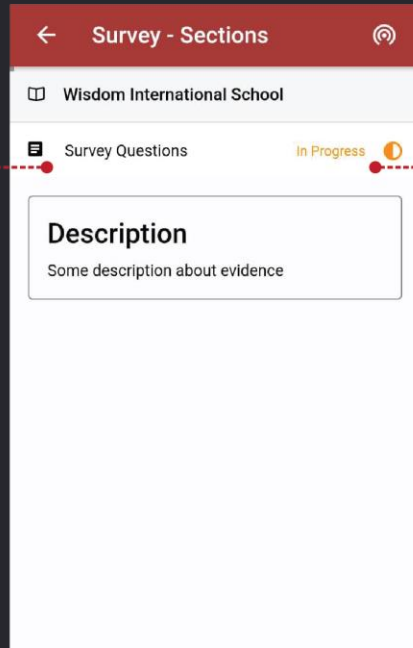

What's new?

This feature gives you the liberty of uploading different medias as evidence, for example Audios, videos and images.
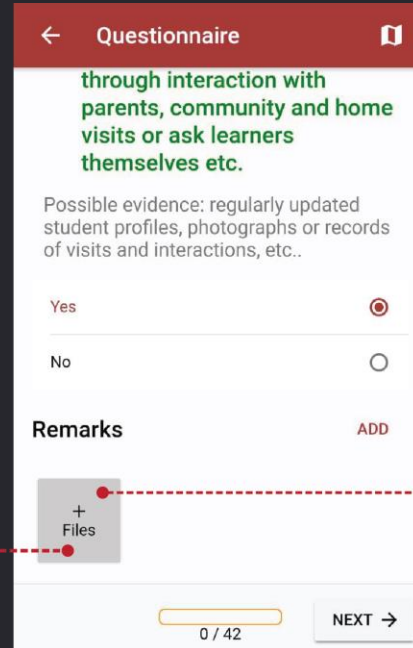

A possible use case:

As an assessor or observer when you are doing observations in a class room, images will not justify the teaching style of a teacher, for that you will need a voice or video recording. With this new feature of Samiksha you can upload any media, for example Video, audio, Spread sheet, MP3, Mp4 etc. different situations need different kinds of evidence.
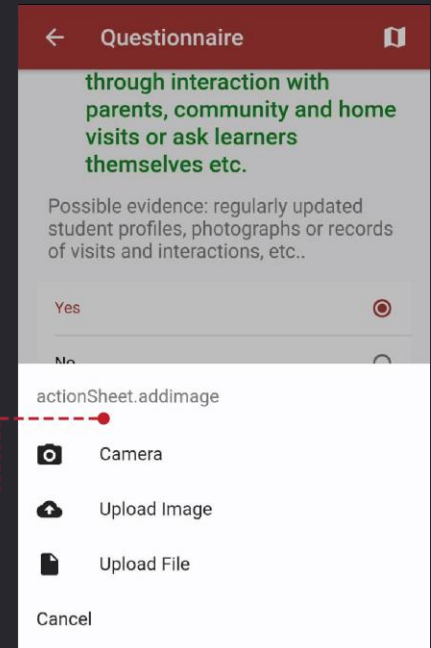

Open Institutional Assessment, Click on the tab.

Select any Section

Select the add files button, below Remarks

Once you click on it, different options to upload media will pop-up, you can choose an option.
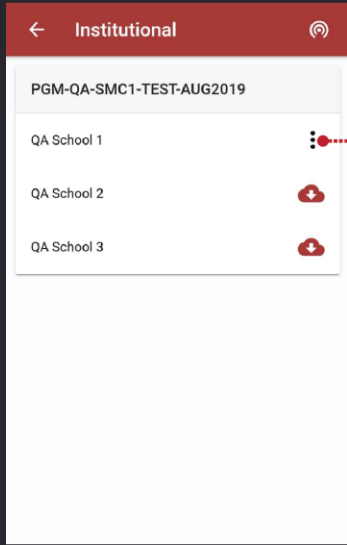

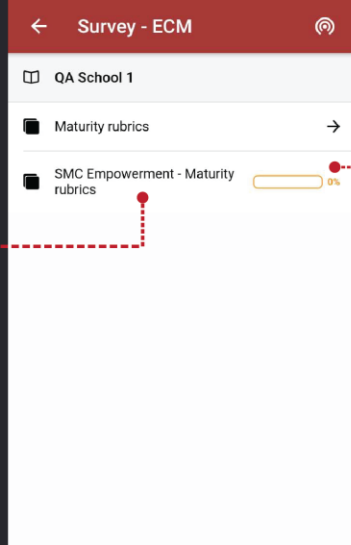

2.
Adding Hints

What's new?

This feature gives you the liberty of adding Hints against each response.
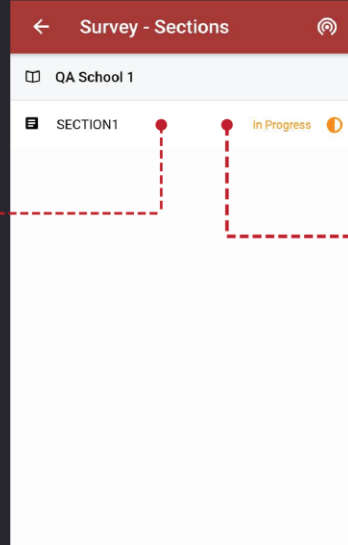

A possible use case:

As an assessor or observer when you are doing observations, you can give pointers against the given responses, so that the assesse have a better understanding of the responses they are choosing.
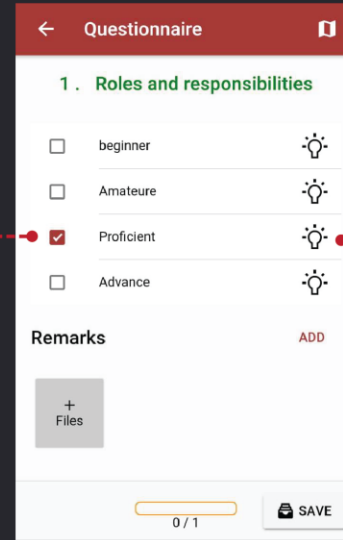

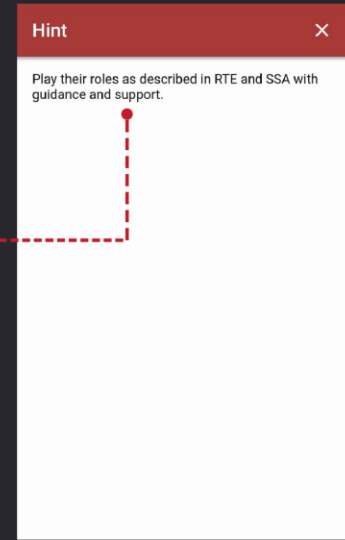

Select an Institutional assessment.

Choose any ECM(Evidence collection method).

Select an Section

You can see the Hint of any response by clicking on the BULB icon

After clicking on the BULB icon, you will be directed to Hint of the selected program

3.
