

Samiksha

Android Version 2.1.11

Release Note May 2020

ShikshaLokam
Education Leadership Platform

Features List

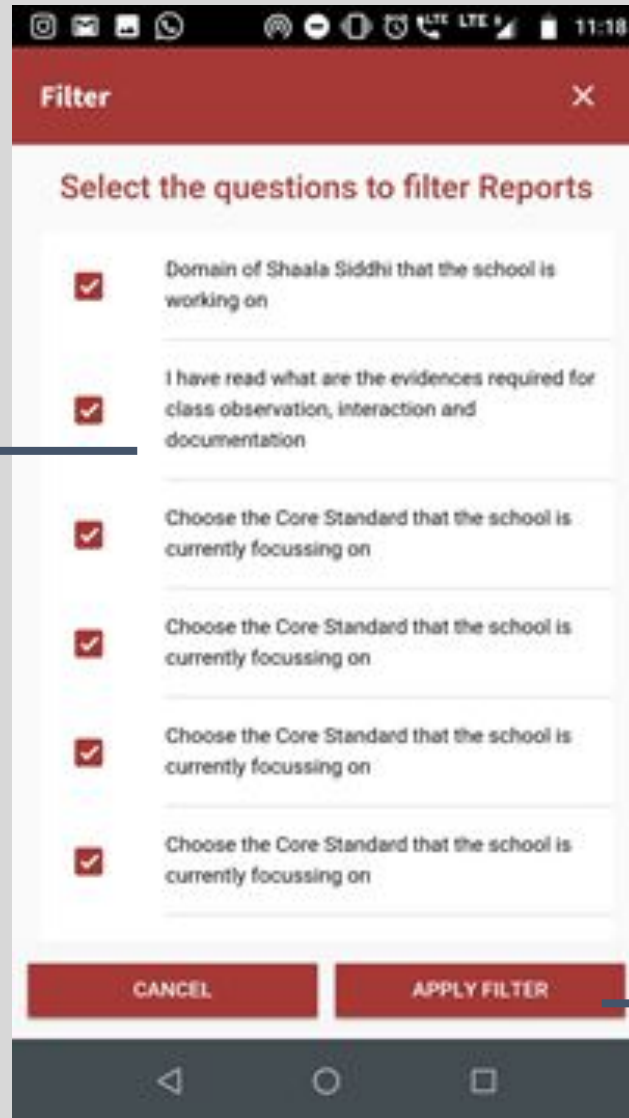

- Question selection filter in Observation reports
- Different reports for observation done by self and others
- Tutorial Video for Samiksha

1.

Question selection filter in Observation reports

As you see the reports, You will see a filter on the right

As you click on the filter you will see the list of questions that you can select

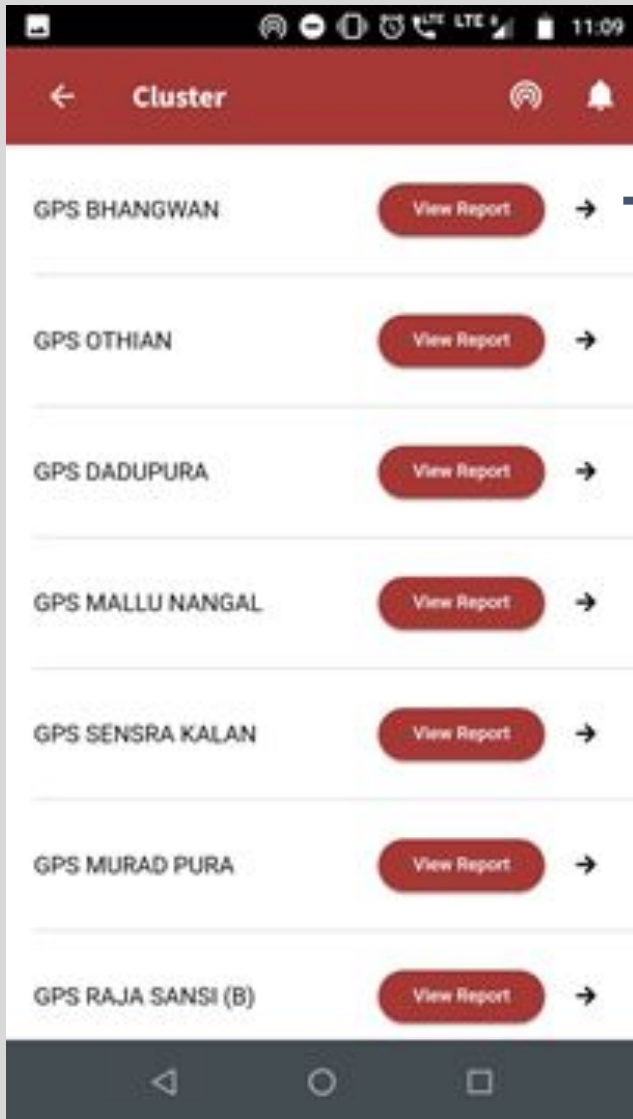

The questions you select will only be visible in the report

2.

Different reports for observations done by self and others

As you select a report you will see two tabs

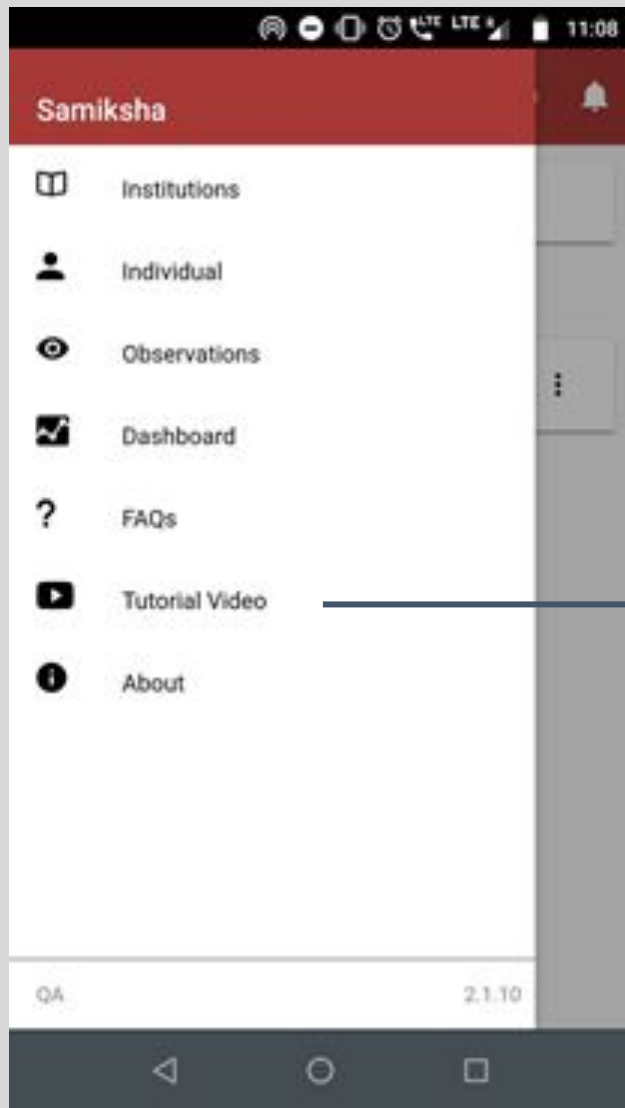

In 'All Observations' you will see the observations done by other people through that solution.

In 'My observations' you will see a list of observations done by you through a solution

3.

TUtorial Video for Samiksha

As you click on the menu bar
You will an option of tutorial
video

As you click on it you will see
the list of videos

Samiksha App Plan to Assess

The video will play on the device itself, It is
an user guide on how to use Samiksha
features.

Thank You
